#### **DETAILED ACTION**

## Pending Claims

The pending claims in the instant application are 10-20. The only independent claim is 10.

#### Election/Restriction

- 1. Claims 14-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 4.
- 2. Applicant's election with traverse of Group I, claims 10-13 in Paper No. 4 is acknowledged. The traversal is on the ground(s) that the method of Group II is well suited to use in conjunction with the apparatus of Group I and that a search of Group I apparatus would necessarily cover the method of Group II. This is not found persuasive because there are a number of transdermal devices that may be used in the administering levodopa drug such as a cream, ointment, aerosol as well as a

Application/Control Number: 09/711,709 Page 3

Art Unit: 1616

transdermal device which would not necessarily have the same structure as that of the instant claimed invention.

The requirement is still deemed proper and is therefore made FINAL.

## **Priority**

3. This application appears to be a division of Application No. 09/287,951, filed April 7, 1999. A later application for a distinct or independent invention, carved out of a pending application and disclosing and claiming only subject matter disclosed in an earlier or parent application is known as a divisional application or "division." The divisional application should set forth only that portion of the earlier disclosure which is germane to the invention as claimed in the divisional application.

#### Claim Objections

4. Claim 13 is objected to under 37 CFR 1.75<sup>©</sup> as being in improper form because a multiple dependent claim 12. See MPEP § 608.01(n). Accordingly, the claim 13 has not been further treated on the merits.

## Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371<sup>©</sup> of this title before the invention thereof by the applicant for patent.
- 6. Claims 10-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Eicher et al. (U.S. Patent 6,132,755).

Eicher et al. discloses an apparatus for transdermal administration comprising a storage compartment containing a fluid for treatment of Parkinson's disease and a dermal patch having a plurality of hollow capillaries for fluid to flow therethrough to a patient being in fluid communication with the storage compartment wherein the dermal patch is attached to a portion of skin of a patient enabling the fluid to flow from the storage compartment to the patient. The flow of the drug is monitored and adjusted (see col. 1, lines 40-50 and col. 1, line 52 to col. 2, line 17).

7.

# **Crystal Mall 1 Facsimile Center**

A facsimile center has been established in Crystal Mall 1, room 7C10. The hours of operation are Monday through Friday, 8:45 AM to 4:45 PM. The telecopier number

Art Unit: 1616

for accessing the facsimile machine is (703) 308-4556. The new location should be used in all instances when faxing any correspondence to Group 1600. Use of the new Crystal Mall 1 center will facilitate rapid delivery of materials to the Group. The faxing of all papers must conform with the notice published in the Official Gazette, 1096 O.G. 30 (November 15, 1989).

8. Any inquiry concerning this communication or earlier communication from the examiner should be directed to Michael A. Williamson whose telephone number is (703) 308-1235.
